Nebraska Wesleyan University

NURS 510 Transcultural Nursing

Catalog

2013-2014

Course Description

Using Leininger's Cultural Care Diversity and Universality Theory, this course analyzes the social, political, economic, and cultural factors related to transcultural health care. Students will examine the interactions of consumers, providers, and health care systems in the provision of quality health care with an emphasis on persons of color and persons who are immigrants to the United States.

Prerequisite(s): Admission to the graduate program.

Course Hours
