Nebraska Wesleyan University

NURS 553 Innovative Nursing Education Strategies

Catalog

2013-2014

Course Description

This course assists the nurse educator in the development of innovative nursing education strategies in an area of practice of the student's choice. Emphasis is placed on research-based practice in education through the application of models and theories and the development of strategies for targeted populations. The majority of the course is web based; however, students meet face to face the first and last weeks of the term.

Prerequisite(s): NURS 552 Curriculum Development and Program Planning in Nursing.

Corequisite(s): NURS 556 Teaching Strategies and Evaluation.
