Nebraska Wesleyan University

THTRE 235 Lighting and Sound Design

Catalog

2013-2014

Course Description

This course is a study of the theory and practice of lighting and sound design. The student will do several projects and designs for lights and sound. One of these designs will be actualized in the laboratory theatre or a major production. This course may be repeated once for credit.

Prerequisite(s): THTRE 002 Script Analysis and THTRE 030 Stagecraft.

(Normally offered on odd fall semesters.)
