Nebraska Wesleyan University

CHEM 3410 Biochemistry

Catalog

2014-2015

Course Description

A comprehensive introduction to the field of biochemistry that will stress the role of molecular structure and reactivity in determining biological function. The course will emphasize biochemical problem solving by the application of basic chemical principles.
Three lectures per week.
Prerequisite(s): CHEM 1120 Chemical Principles II and CHEM 2100 Organic Chemistry I with a grade of "C" or better. A basic biology background is strongly recommended.
(Normally offered each fall semester.)

Course Hours

3 hours
