Nebraska Wesleyan University

THTRE 2750 Lighting and Sound Design

Catalog

2015-2016

Course Description

This course is a study of the theory and practice of lighting and sound design. The student will do several projects and designs for lights and sound. One of these designs will be actualized in the laboratory theatre or a major production. This course may be repeated once for credit.
Prerequisite(s): THTRE 1020 Script Analysis and THTRE 1400 Stagecraft.
(Normally offered on odd fall semesters.)
