Nebraska Wesleyan University

NURS 5530 Nursing Education Roles and Methods

Catalog

2017-2018

Course Description

This course focuses on development of the nurse educator role and nursing education methods used to support the learning process. Emphasis is placed on research-based practices in education through the application of models and theories. A wide selection of instructional methods appropriate for the higher education setting will be examined.
Prerequisite(s): NURS 5520 Curriculum Development in Nursing.
