

BUS 255 Managerial Accounting

3 hours

Departments/Programs:

Business (Adult Undergraduate)

This course studies advanced topics in providing and utilizing accounting information in the planning and controlling of business operations, in costing products or services, and in providing quality to customers. Students also study how this information is utilized to create value through improved decision-making from decisions regarding inventory to profitability analysis to long-term capital investments. This course also studies the use of financial information, as well as non-financial information, to evaluate business performance, strategy, and implementation.

Prerequisite(s): BUS-160 or permission of the instructor.
