

## **BUS 260 Operations Management**

3 hours

**Majors (Adult)**

Bachelor of Science in Business

**Departments/Programs:**

Business (Adult Undergraduate)

In this course students examine the organization's production function - planning and controlling the transformation of resources into goods and services. Using both a strategic and an operational perspective, this course includes discussions and applications in both the manufacturing and service sectors. Topics include forecasting, production processing, resource allocation, critical path analysis, inventory control techniques, and total quality management.

*Prerequisite(s): BUS-105 and BUS-106.*
