Finance

Departments/Programs:

Business, Accounting and Economics (Undergraduate)

This course covers the basic concepts and practices used in the field of international finance including differences in both customs and operating procedures between the United States and its trading partners. The focus will be on their international monetary system and emphasis on the role of international finance in multinational corporations, financing foreign operations, foreign investment analysis, country risk analysis, government currency controls, exchange rates, and arbitrage.

Prerequisite(s): Grades of "C-" or better in ECON 053 Macroeconomic Principles and ECON 054 Microeconomic Principles.

(Normally offered each spring semester.)
