

Course:

FORSC 523 Document Analysis

3 hours

Majors (Grad)

Master of Forensic Science

Departments/Programs:

Forensic Science

The course examines the issues involved in examining documents. Students will be introduced to questioned document examination techniques, handwriting analysis techniques, forensic discourse analysis, forensic linguistics, and the application of logic and language to forensic narrative analysis.

Prerequisite(s): FORSC 515 Advanced Crime Scene Investigation or FORSC 540 Analytical Science as Bases for Investigation with grades of "B-" or better.
