### Nebraska Wesleyan University Catalog 2011-2012

# Course: PHYS 261 Thermal Physics

## 3 hours

# Departments/Programs:

## Physics

A theoretical treatment of macrophysics. The basic principles of thermodynamics and kinetic theory, and statistical mechanics and information theory will be developed and applied to topics of current interest.

#### Three lectures per week.

Prerequisite(s): PHYS 101 Principles of Physics I or PHYS 111 General Physics I, MATH 106 Calculus II, and computer programming skills or permission of the instructor.

Corequisite(s): MATH 204 Calculus III or MATH 224 Differential Equations or permission of the instructor.
