Sociology-Anthropology

Departments/Programs:

Psychology

A course designed to introduce and apply the basic research methods of psychology. Emphasis is placed upon problems of research design and analysis in the laboratory and in natural settings. Students conduct investigations applying various designs and methods. Interpretation of findings and preparation of research reports are treated.

Three lectures per week. One 2-hour lab per week.

Prerequisite(s): PSYCH-001 and PSYCH-110.

(Normally offered each semester.)
