

Course:

NURS 520 Critical Issues in Health Care

3 hours

Majors (Grad)

Master of Science in Nursing (BSN to MSN)

Master of Science in Nursing (RN to MSN)

Departments/Programs:

Nursing (Adult Undergraduate and Graduate)

This course examines multiple factors affecting the provision of care in an ever-changing health care system. The U.S. health policy-making system; ethical, legal, and political aspects of health care; and health care delivery systems will be explored, particularly in relation to their impact on nursing practice and nurses' ability to provide care. A historical perspective will facilitate a) identification of critical issues, b) understanding of how they developed to their current status, and c) examination of what options might exist for current and future resolution of these issues.

Prerequisite(s): Admission to the graduate program.
