

THTRE 233 Scenery and Properties Design

3 hours

Majors, Minors & Degrees:

Majors

Theatre Design and Technology (B.F.A.)

Departments/Programs:

Theatre

This course is a study of the theory and practice of scenery and properties design. The student will do several designs for scenic and property elements. One of these designs will be actualized in the laboratory theatre of a major production. This course may be repeated once for credit.

Prerequisite(s): THTRE-002 and THTRE-030.

(Normally offered on even fall semesters.)
