Nebraska Wesleyan University

CHEM 255 Biochemistry

Catalog

2013-2014

Course Description

A comprehensive introduction to the field of biochemistry that will stress the role of molecular structure and reactivity in determining biological function. The course will emphasize biochemical problem solving by the application of basic chemical principles.

Three lectures per week.

Prerequisite(s): CHEM 122 Analytical and Inorganic Chemistry with a grade of "C" or better. A basic biology background is strongly recommended.

(Normally offered each fall semester.)
