Nebraska Wesleyan University

CMPSC 030 Introduction to Computational Problem Solving

Catalog

2013-2014

Course Description

An introduction to computational problem-solving using a programming language. Students learn the syntax and semantics of a language and apply these to the solution of mathematical problems. Students review mathematical concepts and use them as the basis of algorithmic solution during a hands-on lab. The course is recommended for all who wish to explore computer science.

Prerequisite(s): Appropriate placement score.

Course Hours

3 hours
