## Nebraska Wesleyan University

Catalog 2013-2014

## **FORSC 509 Cold Case Practicum**

2 hours

Majors (Grad)

Master of Forensic Science Master of Science in Forensic Science

## Departments/Programs:

**Forensic Science** 

In this course, the participants will develop a summary of salient facts in a case investigation reconstruction. The summary will include a timeline of the crime event and subsequent investigation, an index of physical evidence with results of forensic analyses citing potential for additional testing due to new technology, a listing of witnesses, suspects and persons of interest with suggestions for further interviews and new investigative leads.

Prerequisite(s): Admittance to the Forensic Science graduation program.
