Departments/Programs:

Nursing (Adult Undergraduate and Graduate)

This course assumes the student possesses basic leadership and management skills, and further examines the role of the baccalaureate nurse as a manager in health care organizations. The roles of the nurse manager are analyzed for each of the management functions: planning, organizing, directing, and controlling. External factors influencing the nurse manager are also examined. Students are able to select their clinical experience in management from a variety of health care organizations and settings. (3 credit hours lecture; 1 credit hour clinical)

Pre or corequisite(s): NURS-205 and NURS-231.
