Nebraska Wesleyan University

HHP 3810 Research and Statistical Methods - II

Catalog

2014-2015

Course Description

This is an experimental research investigation in which each student formulates his or her own research topic, collects and analyzes the data relevant to that topic, and prepares a formal report of the investigation consistent with guidelines for preparing journal manuscripts.
Prerequisite(s): HHP 3800 Research and Statistical Methods - I or permission of instructor.
(Normally offered each spring semester.)
