

## SOC 2530 Population and Environment

4 hours

### Majors, Minors & Degrees:

#### **Majors**

Business-Sociology (B.S.)

Global Studies (B.A., B.S.)

#### **Minors**

Environmental Studies

Family Studies

International Affairs

### Departments/Programs:

Sociology and Anthropology

This course examines the demographic and social dynamics of population size, composition, and distribution. It addresses the relationships between population, human health, development and the environment. Strong cross-cultural emphasis. (Normally offered each spring semester.)
