

**Course:**

**NURS 5980 The Research Process**

**3 hours**

**Departments/Programs:**

Nursing (Adult Undergraduate and Graduate)

This course will allow for students to focus on the first steps of the research process: completing a literature map; presenting a conceptual picture of how articles collected interact; gaining valuable knowledge on the topic of their choosing; defining what they intend to present for their final project; and becoming more comfortable in conducting research.

*Prerequisite(s): NURS 5050 Research and Evidence Based Practice in Nursing and Health Care.*
