

BUSAD 5100 Transcultural Health Care

3 hours

Majors (Grad)

Business Administration (M.B.A.)

Departments/Programs:

Business Administration (Graduate)

This course analyzes the social, political, economic and cultural factors related to transcultural health care. Students will examine the interactions of consumers, providers and health care systems in the provision of quality health care with an emphasis on provision of culturally competent care.

Prerequisite(s): Admission to the graduate program.
