

Course:

FORSC 5340 Threat Assessment and Management

3 hours

Majors (Grad)

Forensic Science (M.F.S.)

Departments/Programs:

Forensic Science

This course will provide the student with an introduction to the discipline of threat assessment. This will be accomplished through exposure to the principles of threat assessment, numerous categories of threatening behavior and by studying examples of threatening incidents. This course will briefly cover a broad spectrum of topics in the threat assessment and management field. Topics to be covered include threat assessment theory, behavioral assessment, stalking, workplace violence, school violence, incident intervention, interviewing and threat management.

Prerequisite(s): FORSC 5150 Advanced Crime Scene Investigation or FORSC 5400 Analytical Science as Bases for Investigation with grades of "B-" or better; Abnormal Psychology, Social Psychology, and Personality Psychology, or permission of the instructor.
