Nebraska Wesleyan University

NURS 5050 Research and Evidence Based Practice in Nursing and Health Care

Catalog

2015-2016

Course Description

This course focuses on quantitative and qualitative research areas and methods used in health care. Analysis of the research process and application of research findings to health care will be emphasized. Students will design a best practice proposal related to an identified problem in nursing, health outcomes of a specific population or nursing education. At the end of the course students will have completed a literature review and methods section for a research project.
Prerequisite(s): Admission to the graduate program or permission of the Nursing Program Director.

Course Hours
