

PRO 4400 Management and Leadership in Healthcare

4 hours

Departments/Programs:

Professional Development (Adult Undergraduate)

This course assumes the student possesses basic leadership and management skills, and further examines the role of the baccalaureate nurse as a manager in health care organizations. The roles of the nurse manager are analyzed for each of the management functions: planning, organizing, directing, and controlling. External factors influencing the nurse manager are also examined. Students are able to select their clinical experience in management from a variety of health care organizations and settings.

3 hours lecture; 1 hour clinical.

Pre or corequisite(s): NURS 3050 Leadership and Issues in Professional Nursing Practice and NURS 3310 Nursing Theories and Contemporary Nursing Practice or permission of the instructor or the Nursing Program Director.
