This course will provide an overview of key topics and concepts used in business disciplines, such as accounting, economics and finance. An understanding of these topics will help students solve business problems by developing their analytical skills. This course also covers other skills required to be successful, including written and oral communications, spreadsheets and networking. Students should complete this course in their first two terms in the MBA.

Recommended to be taken prior to **ACCT 5010 Accounting for Decision Making** and **ECON 5030 Managerial Economics**.
