

Major:

Nursing (Pre-Licensure)

The Nebraska Wesleyan University Pre-Licensure BSN program offers a traditional 4-year Bachelor of Science in Nursing (BSN) degree combining clinical and foundational knowledge including liberal arts courses to receive a more comprehensive education.

Students will gain hands on experience with over 1,100 clinical hours completed upon graduation from the program. Students will further develop critical thinking, decision-making and communication skills through clinical and preceptorship experiences. Students will also train in a fully equipped skills lab. Access to a simulation lab will be included in the clinical coursework.

This program has small class sizes with experienced faculty in all specialty areas of nursing. A prep course is built into the curriculum to help students succeed on the National Council Licensure Examination (NCLEX).

Students will first complete prerequisite coursework totaling 34-36 credits before admission to the program. All nursing courses will be offered through the College of Liberal Arts and Sciences. Most nursing courses are in 8 week formats to better focus on content material.
