**Nebraska Wesleyan University**

# SOC 2910 Social Statistics

## Catalog

2016-2017

## Course Description

In this course students are introduced to descriptive and inferential statistics and their applications to sociological research. Statistical procedures include central tendency measures, variability, t-test, one-way ANOVA, correlation, regression, and chi square. The course also includes specific training in using SPSS for analysis.
*Prerequisite(s): SOC 1110 Introduction to Sociology.*
(Normally offered each spring semester.)
