

Course:

NURS 5980 The Research Process

3 hours

Departments/Programs:

Nursing (Graduate)

This course will allow for students to focus on the first steps of the research process: completing a literature map; presenting a conceptual picture of how articles collected interact; gaining valuable knowledge on the topic of their choosing; defining what they intend to present for their final project; and becoming more comfortable in conducting research.

Prerequisite(s): NURS 5050 Research and Evidence Based Practice in Nursing and Health Care.
