The Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) degrees are academically equivalent within the department. The vast majority of students with an Accounting or Business Administration major choose the B.S. degree. The Economics major is traditionally viewed as a liberal arts major and therefore students often choose the B.A. degree. If a student chooses to graduate with two majors, and one major is only offered as a B.A or B.S., the second major should match the first major's degree.
