Application to Teacher Education Program

Students who have completed at least one course in Education may make formal application to the Teacher Education Program. Applicants must pass the Praxis I Core Academic Skills for Educators at the standards established by the State Board of Education. Students must have a 2.75 or higher GPA for all college courses and a 2.75 GPA or higher in Education courses and courses in the endorsement area. Consult with the education department for other application requirements and details.

Teacher Certification Requirements

All students who expect to be recommended for teacher certification must become candidates in the department's Teacher Education Program. Once a student has applied for candidacy in the program, the student must schedule coursework with an adviser in the education department and in the student's teaching subjects or field. After a student fulfills the requirements or a degree for graduation and for the Teacher Education Program, the student may be recommended for a teaching certificate by the certification officer in the Education Department. The Career Center assists prospective teachers in securing teaching contracts but does not guarantee employment.

Nearly every state requires teaching seeking certification to have passed a content-specific test with a state specified score. Nebraska requires all persons seeking a certificate on or after September 1, 2015 to take the appropriate Praxis II test and achieve a score at or above the minimum required by the state. NWU students will be required to take the Praxis II in their senior year.
