Courses

HHP 3340 Health Care Ethics

3 hours

This introduction to the study of ethics uses primary sources for the analysis of present day ethical dilemmas in health care. The course examines some of the prominent moral principles and systems of the western tradition from Aristotle to the present and how those principles are applied to issues in health care ethics. Course is over 8-week period.
Prerequisite(s): Admission to RN-BSN program or admission to pre-licensure BSN program with all second-year courses completed.

HHP 4400 Management and Leadership in Health Care

4 hours

This course assumes the student possesses basic leadership and management skills, and further examines the role of the baccalaureate nurse as a manager in health care organizations. The roles of the nurse manager are analyzed for each of the management functions: planning, organizing, directing, and controlling. External factors influencing the nurse manager are also examined. Students are able to select their clinical experience in management from a variety of health care organizations and settings. 3 hours lecture; 1 hour clinical.
Pre or corequisite(s): NURS 3050 Issues of Professional Nursing Practice and NURS 3310 Nursing Theories and Contemporary Nursing Practice or permission of the instructor or the Nursing Program Director.
