

Course:

SPED 2200 Learning Strategies III: Cooperative Learning

4 hours

Majors, Minors & Degrees:

Majors

Special Education (B.A., B.S.)

Departments/Programs:

Education (Undergraduate)

Students will learn to develop and deliver specific academic and social curriculum using Social Learning theory and methodology. Demonstration of competence in instructional design and evaluation with a Social Learning theory model is emphasized for students with mild/moderate disabilities. Students may complete a fieldwork experience that will allow them an opportunity to assist a preschool, elementary, or middle school special education teacher for a designated period of time using these instructional methods.

(Normally offered alternate years.)
