This course is designed to help students develop an understanding of the research process and the rationales for basic behavioral statistics. This class will focus on developing skills to conduct a research study, analyze results, and complete the research paper. Students will present their research proposal to recruit subjects, give an informal elevator speech regarding the state of their research project, and at the end of the course, formally present their research study at the NWU Student Symposium.

Prerequisite(s): HHP 3800 Research and Statistical Methods - I or permission of instructor.

(Normally offered each spring semester.)
