### Certificates

Organizational Leadership

### Departments/Programs:

Organizational Leadership and Communication (Adult Undergraduate)

Interpersonal Communication for Leadership is a core course for Organizational Leadership and Communication majors at Nebraska Wesleyan University. The course is significant for students of all majors as every person participates in interpersonal relationships in a variety of contexts: leadership, family, friends and colleagues. In this course we will explore the dynamics of human interaction, relational sense-making, and the influence of context and individual variables on relationships. Primary emphasis will be placed on the application of interpersonal communication concepts and theory to leadership contexts.
