Nebraska Wesleyan University

BIO 4980B Senior Thesis

Catalog

2017-2018

Course Description

Biology majors will perform individual library thesis projects to meet the senior comprehensive requirement. A research report in scientific format and a formal presentation of the thesis is required. Biology majors will complete the final version of their thesis paper and give a formal presentation of their thesis work at the Nebraska Wesleyan University Research Symposium or at a biology department seminar, or at the discretion of the instructor. No P/F.
Completion of both BIO 4980A and BIO 4980B will allow students to earn both Writing Instructive and Speaking Instructive credit.
Prerequisite: Approval of the department chair or instructor, and completion of BIO 4980A Senior Thesis (or in some instances, concurrent enrollment in BIO 4980A).
(Normally offered each spring semester.)

Archway Curriculum: Essential Connections: Writing Instructive
