Health and Fitness Studies  
Sport Management

### **Courses**

AT 1270 Advanced Emergency Care (1 hour)

See HHP 1270 Advanced Emergency Care.

AT 1300 Prevention and Care of Athletic Injuries (3 hours)

See HHP 1300 Prevention and Care of Athletic Injuries.

AT 1900 Selected Topics (1-4 hours)

A topical course designed to investigate relevant subject matter not included in any standard courses. The title and the content will be determined by current mutual interests of students and faculty. This course may be offered to meet a requirement for a major only by approval of the department chair.

Archway Curriculum: Foundational Literacies: Creative and Performing Arts

AT 1950 Independent Study (1-4 hours)

This is a research course. The student initially meets with the department chair to select a study topic and review research methods. At this time the student will be assigned a faculty resource person to guide his or her work and assist in an advisory capacity. A copy of the student's work is filed in the archives for the department. Independent Study may not duplicate courses described in the catalog.

*Prerequisite(s): Permission of the department chair.*

AT 1960 Special Projects (1-15 hours)

Supervised individual projects for students on topics selected by the student in consultation with the instructor. Special Projects may not duplicate courses described in the catalog.

*Prerequisite(s): Permission of the instructor.*

AT 2010 Athletic Training Clinical Experience I (2 hours)

This course provides clinical experience supervised by a Clinical Preceptor in an athletic training setting. Emphasis will be placed on advanced first aid and CPR with AED, spine boarding, emergency action plan implementation, heat and environmental related conditions, risk management and injury prevention, taping and wrapping of athletic injuries and protective equipment fitting and prevention, taping and wrapping of athletic injuries and protective equipment fitting and maintenance.

*Prerequisite(s): Admission into the ATP.*

**AT 2020 Athletic Training Clinical Experience II (2 hours)**

This course provides clinical experience supervised by a Clinical Preceptor in an athletic training setting. Emphasis will be placed on recognition and evaluation of the lower extremity sports injuries.

*Prerequisite(s): AT 2010 Athletic Training Clinical Experience I.*

**AT 2400 Physical Exam of the Lower Extremity (3 hours)**

An in-depth study of how the lower extremities including skills used to evaluate, treat and manage athletic injuries. Includes one 1-hour lab per week.

*Prerequisite(s): Formal admission into ATP or BIO 1090 Introduction to Human Anatomy and Physiology I and BIO 1100 Introduction to Human Anatomy and Physiology II and junior standing and permission of the instructor.*

**AT 2410 Physical Exam of the Upper Extremity (3 hours)**

An in-depth study of the upper extremities including skills used to evaluate, treat and manage athletic injuries. Includes one 1-hour lab per week.

*Prerequisite(s): AT 2400 Physical Exam of the Lower Extremity.*

**AT 2450 Therapeutic Modalities of Athletic Injuries (3 hours)**

This course is designed to provide an overview of the theory, application, and knowledge of therapeutic modalities. The use of heat, cold, electrical, and other treatments will be explored. Includes one 1-hour lab per week.

*Prerequisite(s): Admission to the ATP, AT 2400 Physical Exam of the Lower Extremity, and permission of the instructor.*

**AT 2900 Selected Topics (1-4 hours)**

A topical course designed to investigate relevant subject matter not included in any standard courses. The title and the content will be determined by current mutual interests of students and faculty. This course may be offered to meet a requirement for a major only by approval of the department chair.

**AT 2950 Independent Study (1-4 hours)**

This is a research course. The student initially meets with the department chair to select a study topic and review research methods. At this time the student will be assigned a faculty resource person to guide his or her work and assist in an advisory capacity. A copy of the student's work is filed in the archives for the department. Independent Study may not duplicate courses described in the catalog.

*Prerequisite(s): Permission of the department chair.*

**AT 2960 Special Projects (1-15 hours)**

Supervised individual projects for students on topics selected by the student in consultation with the instructor. Special Projects may not duplicate courses described in the catalog.

*Prerequisite(s): Permission of the instructor.*

**AT 3010 Athletic Training Clinical Experience III (2 hours)**

This course provides clinical experience supervised by a Clinical Preceptor in an athletic training setting. Emphasis will be placed on recognition and evaluation of upper extremity injuries, and therapeutic modalities.

*Prerequisite(s): AT 2020 Athletic Training Clinical Experience II.*

**AT 3020 Athletic Training Clinical Experience IV (2 hours)**

This course provides clinical experience supervised by a Clinical Preceptor in an athletic training setting. Emphasis will be placed on conditioning and rehabilitation exercises for injuries.

*Prerequisite(s): AT 3010 Athletic Training Clinical Experience III.*

**AT 3330 Health Assessment (3 hours)**

This course will provide skills required to conduct a holistic health assessment through comprehensive analysis of a patient's health status across the age continuum. Topics include: dermatological, cardiovascular, ear, nose and throat, neurological, respiratory, musculoskeletal, gastrointestinal, renal and urogenital, endocrine and metabolic systems, and psychological medical disorders.

Cross listed with HHP 3330.

*Prerequisite(s): Junior standing.*

#### AT 3600 Rehabilitation of Injuries (3 hours)

This course involves learning essential components of a rehabilitation program including principles of therapeutic exercises, rehabilitation techniques and special therapeutic techniques. Includes one 1-hour lab per week.

*Prerequisite(s): Admission to the ATP, AT 2400 Physical Exam of the Lower Extremity, AT 2410 Physical Exam of the Upper Extremity and permission of instructor.*

Archway Curriculum: Essential Connections: Writing Instructive

#### AT 3900 Selected Topics (1-4 hours)

A topical course designed to investigate relevant subject matter not included in any standard courses. The title and the content will be determined by current mutual interests of students and faculty. This course may be offered to meet a requirement for a major only by approval of the department chair.

#### AT 3950 Independent Study (1-4 hours)

This is a research course. The student initially meets with the department chair to select a study topic and review research methods. At this time the student will be assigned a faculty resource person to guide his or her work and assist in an advisory capacity. A copy of the student's work is filed in the archives for the department. Independent Study may not duplicate courses described in the catalog.

*Prerequisite(s): Permission of the department chair.*

#### AT 3960 Special Projects (1-15 hours)

Supervised individual projects for students on topics selected by the student in consultation with the instructor. Special Projects may not duplicate courses described in the catalog.

*Prerequisite(s): Permission of the instructor.*

#### AT 4010 Athletic Training Clinical Experience V (2 hours)

This course provides clinical experience supervised by a Clinical Preceptor in an athletic training setting. Emphasis is placed on medical conditions and disabilities, pharmacology, nutritional aspects of injury and illness, and psychosocial intervention and referral.

*Prerequisite(s): AT 3020 Athletic Training Clinical Experience IV.*

Archway Curriculum: Essential Connections: Experiential Learning: Intensive

#### AT 4020 Athletic Training Clinical Experience VI (2 hours)

This course provides clinical experience supervised by a Clinical Preceptor in an athletic training setting. Emphasis is placed on the use of computer software, health care administration, and professional development. Incorporated into this course will be a research project which serves as a capstone of the educational experiences at Nebraska Wesleyan University.

*Prerequisite(s): AT 4010 Athletic Training Clinical Experience V.*

Archway Curriculum: Essential Connections: Experiential Learning: Intensive

#### AT 4350 Organization and Administration of Athletic Training (3 hours)

This course is designed to study the application of the organizational and administrative outlooks in regards to the field of athletic training. It will address emergency care situations in respect to proper record keeping, facility management, and scheduling of medical staff and equipment. In addition, an in-depth exploration of the requirements set forth by OSHA and other federal agencies will be incorporated into each learning environment.

*Prerequisite(s): Admission into the ATP, Junior standing, and permission of instructor.*

Archway Curriculum: Essential Connections: Discourse Instructive

#### AT 4900 Selected Topics (1-4 hours)

A topical course designed to investigate relevant subject matter not included in any standard courses. The title and the content will be determined by current mutual interests of students and faculty. This course may be offered to meet a requirement for a major only by approval of the department chair.

#### AT 4950 Independent Study (1-12 hours)

This is a research course. The student initially meets with the department chair to select a study topic and review research methods. At this time the student will be assigned a faculty resource person to guide his or her work and assist in an advisory capacity. A copy of the student's work is filed in the archives of the department. Independent Study may not duplicate courses described in the catalog.

*Prerequisite(s): Senior standing or permission of the department chair.*

#### AT 4960 Special Projects (1-15 hours)

Supervised individual projects for students on topics selected by the student in consultation with the instructor. Special Projects may not duplicate courses described in the catalog.

*Prerequisite(s):* Permission of the instructor.

#### AT 4970 Internship (1-8 hours)

An on-the-job experience oriented toward the student's major interest. The student is to secure a position in an organization that satisfies the mutual interests of the instructor, the sponsor, and the student. May be repeated for a maximum of 8 credit hours. P/F Only.

*Prerequisite(s):* Junior standing and approval of the supervising faculty member.

#### AT 4980 Professional Engagement/Capstone Seminar (2 hours)

See HHP 4980 Professional Engagement/Capstone Seminar in HHP.

#### AT 4990 Senior Assessment and Comprehensive Exam (0 hours)

As partial fulfillment of a major in the Health and Human Performance Department, a student must take and pass, with a B or better, a comprehensive examination during his or her senior year. The comprehensive examination is designed to assess critical thinking, knowledge, and application of skills learned. P/F Only. Cross listed with HHP 4990.

*Prerequisite(s):* Senior standing and a departmental major, or permission of the instructor.

(Normally offered each semester.)

#### HHP 1000 Varsity Sports (0-1 hour)

Participation on a varsity team regularly coached and organized by a member of the staff. Course may be recorded on transcript a maximum of four times in each sport, with a limit of one recording per year per sport.

Pass/Fail only.

#### HHP 1020 Advanced Physical Performance (0-1 hours)

A course designed for developing speed, agility, strength explosiveness and overall conditioning for any sport. The course is recommended for well-conditioned students. May be repeated for a maximum of 2 credit hours.

Pass/Fail only.

(Normally offered each spring semester.)

#### HHP 1030 Handball (1 hour)

A course designed to teach fundamental skills and knowledge of beginning handball.

Pass/Fail only.

#### HHP 1040 Weight Training (1 hour)

A course designed to help students develop a healthier lifestyle through weight training. The course includes information on proper technique and training program organization. Safety is emphasized and there are no strength standards. May be repeated for a maximum of 2 credit hours.

Pass/Fail only.

#### HHP 1050 Fitness Walk/Run (1 hour)

A course designed to improve cardiovascular endurance through individual workouts, and to introduce students to fitness-related principles. May be repeated for maximum of 2 credit hours.

Pass/Fail only.

(Normally offered each spring semester.)

#### HHP 1060 Tennis (1 hour)

A course designed to teach fundamental skills and techniques of beginning tennis.

Pass/Fail only.

#### HHP 1070 Dance (1 hour)

A course designed to teach basics techniques of dance and to introduce students to a variety of dance styles.

Pass/Fail only.

**HHP 1080 Racquetball (1 hour)**

A course designed to teach fundamental skills and knowledge of beginning racquetball.  
Pass/Fail only.

**HHP 1090 Bowling (1 hour)**

A course designed to teach fundamental skills and knowledge of beginning bowling.  
Pass/Fail only.

**HHP 1100 Golf (1 hour)**

A course designed to teach fundamental skills and knowledge of beginning golf.  
Pass/Fail only.  
(Normally offered each semester.)

**HHP 1110 Fitness Cycling (1 hour)**

A course designed to introduce students to outdoor cycling and to improve cardiovascular endurance through individual and group workouts. Bike and helmet required. May be repeated for a maximum of 2 credits.  
Pass/Fail only.

**HHP 1120 Aerobics (1 hour)**

A course designed to introduce students to fitness-related principles and to improve cardiovascular endurance through aerobic activity. May be repeated for a maximum of 2 credits.  
Pass/Fail only.

**HHP 1130 Cross Training (1 hour)**

A course designed to introduce students to a variety of methods to develop cardiovascular endurance. Students will receive basic instruction in several proven cross training methods. May be repeated for a maximum of 2 credits.  
Pass/Fail only.

**HHP 1140 Swimming (1 hour)**

A course designed to teach the fundamental skills of water exploration, primary swimming skills, stroke readiness, and stroke development.  
Pass/Fail only.

**HHP 1150 Yoga I (1 hour)**

A course designed to promote health, alleviate stress, improve skeletal alignment, and increase muscular strength and flexibility. Students will learn a series of physical postures (asanas) as well as practical methods for relaxation, breathing techniques (pranayama), and concentration designed to balance the mind, body and spirit.  
Pass/Fail only.

**HHP 1160 Fitness Swimming (1 hour)**

A course designed to improve cardiovascular endurance through individual workouts and to introduce students to fitness-related principles. The student must have swimming competency. May be repeated for a maximum of 2 credit hours.  
Pass/Fail only.

**HHP 1180 Scuba I: Open Water Dive (1 hour)**

A course designed to introduce students to background principles and beginning techniques of scuba diving. Certification may be awarded at the discretion of the instructor. Students must have basic swimming ability and be in general good health.  
Pass/Fail only.  
(Normally offered each semester.)

**HHP 1190 Scuba II: Advanced Open Water Dive (1 hour)**

A course designed to introduce student to underwater navigation, deep diving, night diving, and confined water skills. Students must have basic swimming ability and be in general good health. P/F Only.  
*Prerequisite(s): HHP 1180 Scuba I: Open Water Dive.*

**HHP 1210 Lifeguard Training/Head Lifeguard (2 hours)**

A course designed for prospective lifeguards and students interested in becoming head lifeguards. Students will be certified by the American Red Cross.

(Normally offered each summer.)

#### HHP 1250 Health and Wellness (2 hours)

A course designed to enable students to develop a concept of total health and fitness such that the student can attain a degree of physical well-being consonant with each student's unique abilities. The experiences in this course will focus on maintaining physical activity across the entire life span in order to promote life-long physical well-being. Specific topics include nutrition, cardiovascular endurance, body composition, muscular strength and endurance, muscular flexibility, behavior modification, stress management, and disease prevention.

(Normally offered each semester.)

#### HHP 1260 Human Health and Wellness (2 hours)

A course designed to give the students a better understanding of how the body functions. Health and wellness involves the study of factors affecting the physical, emotional and mental well-being of individuals. Health is a state of body and mind viewed within the context of the individual, community, society, and environment. This class will offer a holistic view of how ones external and internal factors affect health.

(Normally offered each semester.)

Archway Curriculum: Integrative Core: Human Health and Disease Thread

#### HHP 1270 Advanced Emergency Care (1 hour)

A study and application of the principles and techniques involved in the advanced administration of first aid, cardio-pulmonary resuscitation (CPR), and automated electronic defibrillators (AEDs). Students will earn American Red Cross certifications. Cross listed with AT 1270.

(Normally offered each semester.)

#### HHP 1300 Prevention and Care of Athletic Injuries (3 hours)

A study of injuries common to athletic participants and the prevention and care of such injuries. Cross listed with AT 1300.

(Normally offered each spring semester.)

#### HHP 1310 Foundations (1 hour)

An overview of the fields of Physical Education, Human Performance, and Sports Studies will be studied, which include teaching, exercise science, health and fitness studies, and related fields. Topics addressed will include history; careers; current issues; girls and women in sport; minorities in physical education and sport; teacher, coach, athletic trainer, and exercise specialist certifications; educational values of sports; and the importance of physical activity for all.

(Normally offered each semester.)

#### HHP 1320 Introduction to Allied Health (1 hour)

This course is designed to introduce students to the world of allied health. The course will explore careers in the allied health fields. Additionally, students will begin to develop the personal and professional skills needed to work in these fields.

#### HHP 1330 Basic Instruction Block (3 hours)

A course designed to enhance students in skills and teaching techniques used in team, dual, and individual activities. The students will have opportunity for participation and teaching of skills involved in selected activities. This class is designed for students interested in learning a variety of activities.

(Normally offered each spring semester)

#### HHP 1500 Introduction to Coaching Theory (2 hours)

A course designed to develop and expand information about coaching, coaching styles, and coaching strategies. The course will cover practical coaching theories and include information about organization, communication, and motivation.

(Normally offered each spring semester.)

#### HHP 1700 Introduction to Sport Management and Leadership (3 hours)

This course is designed to provide current or future sport program administrators with an overview of the sport management discipline. The introduction is focused on the history of the sport management discipline, career opportunities, management principles, marketing, economics and finance, facility and event management, law, communications, and public relations. These principles are applied to various sport and exercise settings, such as interscholastic, intercollegiate, international, and

professional sport along with the community recreation industries.  
(Normally offered each semester.)

#### HHP 1740 Sport in Society (2 hours)

Sport in Society course designed in taking global, issues-oriented approach to the study of the role of sport in society. This course encourages the discussion of current sport-related controversies and helps students develop critical thinking skills. This course also provides an analysis of social patterns of sport as these are shaped and maintained in social contexts. Structures and dynamics of sport can be viewed as an institution that is closely linked with other institutions such as family, education, gender roles, and racial and socioeconomic patterns.  
(Normally offered each spring semester.)

#### HHP 1750 Administration and Human Resources Management (3 hours)

A course designed to provide students with the basic principles and applications of management and leadership as they relate to the sport industry. Topics include functions of management, organizational behavior, management theories, management style, human resources management, and theories and styles of leadership as they pertain to the sport industry.

*Prerequisite(s): Junior standing.*

(Normally offered each fall semester.)

#### HHP 1760 Sports Studies - An Introduction to Football (2 hours)

A course designed to develop and expand information about the game of football. This course will familiarize students with the rules, strategies, and skills associated with football. Information will be provided to benefit students interested in coaching and officiating as well as those who want to increase their knowledge of the game.  
(Normally offered each fall semester.)

#### HHP 1770 Sports Studies - An Introduction to Volleyball (2 hours)

A course designed to develop and expand information about the game of volleyball. This course will familiarize students with the rules, strategies, and skills associated with volleyball. Information will be provided to benefit students interested in coaching and officiating as well as those who want to increase their knowledge of the game.  
(Normally offered each fall semester.)

#### HHP 1780 Sports Studies - An Introduction to Basketball (2 hours)

A course designed to develop and expand information about the game of basketball. This course will familiarize students with the rules, strategies, and skills associated with basketball. Information will be provided to benefit students interested in coaching and officiating as well as those who want to increase their knowledge of the game.  
(Normally offered each spring semester.)

#### HHP 1790 Sports Studies - An Introduction to Baseball/Softball (2 hours)

A course designed to develop and expand information about the game of baseball/softball. This course will familiarize students with the rules, strategies, and skills associated with baseball/softball. Information will be provided to benefit students interested in coaching and officiating as well as those who want to increase their knowledge of the game.  
(Normally offered each spring semester.)

#### HHP 1800 Sports Studies - An Introduction to Soccer (2 hours)

A course designed to develop and expand information about the game of soccer. This course will familiarize students with the rules, strategies, and skills associated with soccer. Information will be provided to benefit students interested in coaching and officiating as well as those who want to increase their knowledge of the game.  
(Normally offered each fall semester.)

#### HHP 1810 Sport Studies - An Introduction to Track/Cross Country (2 hours)

A class that investigates the science and coaching methods of track and field and cross country. Areas of study include sport psychology, training theory, biomechanics, physiology and philosophy. Classroom work will be supplemented by actual practice coaching.  
(Normally offered each summer.)

#### HHP 1840 Sports Studies: An Introduction to Swimming (2 hours)

A course designed to develop and expand basic information about coaching swimming, such as stroke mechanics, training different energy systems for the various events, dryland/weight training, and mental skills development. Students will learn about

the various coaching opportunities in swimming, as well as acquire a general understanding of the rules of competitive swimming.

#### HHP 1900 Selected Topics (1-4 hours)

A topical course designed to investigate relevant subject matter not included in any standard courses. The title and the content will be determined by current mutual interests of students and faculty. This course may be offered to meet a requirement for a major only by approval of the department chair.

#### HHP 1910 Medical Terminology (1 hour)

This course focuses on the systematic approach to word building and term comprehension of medical terms. Includes definitions, spellings, pronunciations and common abbreviations of medical terms.

#### HHP 1950 Independent Study (1-4 hours)

This is a research course. The student initially meets with the department chair to select a study topic and review research methods. At this time the student will be assigned a faculty resource person to guide his or her work and assist in an advisory capacity. A copy of the student's work is filed in the archives for the department. Independent Study may not duplicate courses described in the catalog.

*Prerequisite(s):* Permission of the department chair.

#### HHP 1960 Special Projects (1-15 hours)

Supervised individual projects for students on topics selected by the student in consultation with the instructor. Special Projects may not duplicate courses described in the catalog.

*Prerequisite(s):* Permission of the instructor.

#### HHP 2010 Drugs in Modern Society (3 hours)

A course designed to develop and expand information about the use and abuse of drugs including: alcohol, tobacco, depressants, stimulants, narcotics, inhalants, club drugs, date rape drugs, hallucinogens, marijuana, sport enhancement drugs, prescription and OTC drugs. The course will include history of, and facts about the substances, the pharmacokinetic properties, the formation of laws, the victims, prevention, and approaches to treating the problem.

(Normally offered each fall semester.)

Archway Curriculum: Essential Connections: Discourse Instructive

Archway Curriculum: Integrative Core: Human Health and Disease Thread

#### HHP 2020 Consumer, Community, and Environment Health Issues (3 hours)

A course designed to develop and expand information about the environment, the informed health consumer, healthful aging and community health. The course will acquaint students with the process of aging, consumer protection, the environment, and community from a health perspective.

(Normally offered each fall semester.)

Archway Curriculum: Integrative Core: Human Health and Disease Thread

#### HHP 2030 Human Sexuality (3 hours)

A course designed to develop and expand current information about human sexuality in a practical manner. The course will present facts and statistics about anatomy and physiology, gender, sexual orientation, reproduction, sexually transmitted infections, contraception, sexual growth and development, relationships and sexual communication, sexual health, commercialization of sex and sexual coercion.

(Normally offered each spring semester.)

Archway Curriculum: Essential Connections: Discourse Instructive

Archway Curriculum: Essential Connections: Diversity Instructive: U.S.

Archway Curriculum: Integrative Core: Human Health and Disease Thread

Archway Curriculum: Integrative Core: UC Reflected Self Thread

#### HHP 2040 Stress and Disease Management (2 hours)

A course designed to develop and expand information about stress, mental health, and major chronic diseases. The course will present causes and warning signs of major chronic diseases and coping strategies for emotional stress.

(Normally offered each fall semester.)

Archway Curriculum: Integrative Core: Human Health and Disease Thread

#### HHP 2050 Pharmaceutical Drugs I (2 hours)

This course is designed to provide an extensive framework of knowledge through the introduction to pharmacologic principles. A basic knowledge of the subject of drugs, their sources, and their uses will be introduced. Medication preparation, supplies, and specific information on each route of administration are covered.

*Prerequisite(s): HHP 1910 Medical Terminology or NURS 1910 Medical Terminology.*

#### HHP 2060 Pharmacology Drugs II (2 hours)

This course is designed to provide an extensive framework of knowledge through the study of medications. Students will study drugs according to classifications including characteristics of typical drugs, their purposes, side effects, precautions or contradictions, and interactions.

*Prerequisite(s): HHP 1910/NURS 1910 Medical Terminology and HHP 2050 Pharmaceutical Drugs I or permission of the instructor.*

#### HHP 2500 Human Nutrition I (2 hours)

This is a course designed to provide students with the basic scientific principles of nutrition focusing on their personal choices and experiences. The student will develop a definition of nutrition, and learn how nutrition has evolved. The student will be introduced to the concepts of: essential nutrient classifications, defining and developing a healthy diet, recommendations for specific nutrients, eating disorders, energy balance and obesity, body composition, lifetime nutrition (infancy to older adults), and food/beverage choices and the influence on chronic disease and optimal wellbeing.

(Normally offered each semester)

Archway Curriculum: Integrative Core: Human Health and Disease Thread

#### HHP 2600 Human Nutrition II (2 hours)

This is a course designed to study foods and their effects upon health, development, and performance of the individual. The student will build on materials and knowledge learned from Nutrition I. The student will be introduced to the concepts of: link between food and energy, proper water balance, and electrolytes, science of supplementation, manipulation of macronutrient intake, nutrient timing, customized nutrition plans, and the key concepts of sport nutrition relative to both exercise and nutrition for optimal health and physical performance.

*Prerequisite(s): HHP 2500 Human Nutrition I*

(Normally offered each spring semester.)

Archway Curriculum: Essential Connections: Writing Instructive

#### HHP 2640 Positive Psychology (2 hours)

This course provides an introduction to the study of topics related to happiness and the positive aspects of human experience. The first part of the course will focus on the basic areas of research in positive psychology and the methods that researchers use to study happiness, while the second half will broaden the focus to include big-picture issues and real-world application.

*Prerequisite(s): PSYCH 1010/PSYCH 1010FYW Introduction to Psychological Science or permission of instructor.*

#### HHP 2650 Strength Training and Conditioning for Coaches (2 hours)

A course designed to provide coaches with solid guidelines for designing strength training and conditioning programs for athletes. The course will cover information on designing year-round programs, proper training technique, and physiological changes associated with training.

(Normally offered each fall semester.)

#### HHP 2660 Personal Training (2 hours)

A course designed to help the student to acquire knowledge and new skills to become a certified personal trainer. This course is designed for entry-level personal trainers. The students will learn the scientific rationale, teaching tools and the practical experience necessary to perform assessments, create individualized programs and progress your clients to their goals. The student will also learn human movement, exercise science, nutrition, and behavior modification, as well as how to build clientele and increase revenue.

*Prerequisite(s): HHP 1270 Advanced Emergency Care, BIO 1090 Introduction to Human Anatomy and Physiology I, BIO 1100 Introduction to Human Anatomy and Physiology II or permission of the instructor.*

(Normally offered each spring semester.)

#### HHP 2720 Introduction to Massage Therapy (3 hours)

This course is an introduction to the field of massage therapy in rehabilitation programs and personal wellness plans. The class will address local, national and global perspectives, current research, history and development in the field. Laboratory experiences with methods in wellness massage are emphasized.

(Normally offered each fall semester and summer.)

### HHP 2760 Sport and Exercise Psychology (2 hours)

This course examines psychological theories and practices related to sport and exercise behavior. The course is designed to introduce you to the field of sport and exercise psychology by providing a broad overview of the major topics in the area. (Normally offered each spring semester.)

### HHP 2780 Curriculum and Methodology for Elementary Health and Physical Education (3 hours)

An examination of the objectives of an elementary health and physical education program and the development of a curriculum to meet these objectives. An introduction to teaching methods and class management skills are utilized in these programs. This course is designed for elementary education majors.

*Prerequisite(s): Sophomore standing.*

(Normally offered each fall semester.)

### HHP 2800 Cardiac Rehabilitation (2 hours)

A course designed to introduce students to clinical exercise. This course will involve learning basic cardiovascular physiology, the phases of cardiac rehabilitation, and appropriate exercise and testing procedures. Introduction to interpreting electrocardiograms and case-study analyses are also included.

*Prerequisite(s): BIO 1090 Introduction to Human Anatomy and Physiology I and BIO 1100 Introduction to Human Anatomy and Physiology II.*

(Normally offered each spring semester.)

### HHP 2920 Sport Facility and Event Management (3 hours)

This course examines the sports industry in relation to facility design, facility maintenance and risk management of operating sporting and recreational facilities.

(Normally offered each spring semester.)

### HHP 2970 Field Experience: Student Health and Fitness Coaching (1-3 hours)

This course is designed to provide students with on-the-job experience in health and fitness coaching. The purpose of a field experience is to help students make the transition from student to professional. This course will go through an entire health and fitness coaching experience starting with the client recruitment, initial evaluation, goal setting, health guidance and planning (exercise and nutrition), and final evaluation. You must be signed up for credit while completing hours or the hours toward your field experience do not count. May be repeated for a maximum of 6 credit hours. P/F Only.

*Prerequisite(s): HHP 1270 Advanced Emergency Care, HHP 2500 Human Nutrition I, and HHP 2660 Personal Training or HHP 2650 Strength Training and Conditioning for Coaches, and approval of instructor.*

### HHP 3000 Coaching Practicum (3-6 hours)

Practical experience in coaching in interscholastic athletic programs. The student will work with an athletic team throughout a season and will be involved with all aspects of the program. This course requires a considerable amount of commitment from the student. May be repeated for a maximum of 6 credit hours.

Pass/Fail only.

*Prerequisite(s): Approval of the coaching advisor.*

Archway Curriculum: Essential Connections: Experiential Learning: Intensive

### HHP 3100 Worksite Health Promotion (3 hours)

A course designed to introduce students to concepts and practices relating to worksite health promotion. Students will learn how to develop, implement, and evaluate wellness promotion programs. Students will complete a 20-hour field experience in an assigned worksite in the community to provide invaluable experience.

(Normally offered each fall semester.)

### HHP 3120 Motor Learning and Control (3 hours)

A course that will introduce students to current understandings of how complex motor skills are initially learned, and how they are controlled and refined with practice, from a behavioral point of view. A variety of activities will provide students with practical examples to deepen understanding. This course has applications to general exercise science, physical therapy, and coaching.

(Normally offered each fall semester.)

### HHP 3210 Current Issues and Ethics in Sport (3 hours)

This is a course designed to introduce students to ethical theories and thinking through the analysis of major issues present in today's sporting landscape. Students will be engaged in discussions of the past, current and future nature of sport and the issues

that affect both sport and society in order to better understand the ethical dilemmas that face current and future sport managers/administrators, participants, health professionals, coaches, academics and consumers.  
(Normally offered each spring semester.)

Archway Curriculum: Essential Connections: Discourse Instructive

HHP 3330 Health Assessment (3 hours)

See AT 3330 Health Assessment.

HHP 3500 Planning and Implementing Elementary Physical Education Programs (3 hours)

A course designed for students interested in teaching elementary physical education. Topics include curriculum development, teaching goals and objectives, curriculum guide and lesson plans, constructing and using evaluation tools and measures, and methods and material (including technology) used in teaching elementary physical education. A 10-hour practicum experience in the elementary physical education class setting is required.

*Prerequisite(s): Acceptance into the Teacher Education Program or permission of the department chair, and junior standing.*  
(Normally offered every odd fall semester.)

HHP 3550 Planning and Implementing Health Education Programs (3 hours)

A course designed for students interested in teaching elementary, middle school and secondary health education. Topics include curriculum development, teaching goals and objectives, the study of health content, a framework for comprehensive school health education program, teaching strategies, curriculum guide development and lesson planning, constructing and using evaluation tools and measurements, methods and material (including technology) used in teaching health education. A 10-hour practicum experience in health education will be required.

*Prerequisite(s): Acceptance into the Teacher Education Program or permission of the department chair, and junior standing.*  
(Normally offered every even spring semester.)

HHP 3600 Planning and Implementing 7-12 Physical Education Programs (3 hours)

A course designed for students interested in teaching middle and/or secondary physical education. Topics include curriculum development, teaching goals and objectives, curriculum guide and lesson plans, constructing and using evaluation tools and measures, and methods and materials (including technology) used in teaching middle and/or secondary physical education. A 10- hour practicum experience in the middle and/or secondary physical education class setting is required.

*Prerequisite(s): Acceptance into the Teacher Education Program or permission of the department chair, and junior standing.*  
(Normally offered every odd spring semester.)

HHP 3650 Planning and Implementing Adapted Physical Education Programs (3 hours)

A course designed to include current research findings and the best practices to assist professionals in designing and implementing appropriate physical education programs for individuals with disabilities.

*Prerequisite(s): Acceptance into the Teacher Education Program or permission of the department chair, and junior standing.*  
(Normally offered summers and each spring semester.)

HHP 3700 Sport Law and Governance (3 hours)

This course is designed to provide students with an introduction to the U.S. legal system as presented and applied to contexts within the sport industry. Students will also be introduced to fundamental legal principles of significance to sport management. Students will analyze numerous cases and the legal concepts and analyses presented to gain a deeper understanding of legal issues in various coaching, governance, management, and sport participation scenarios.

(Normally offered each fall semester.)

Archway Curriculum: Essential Connections: Writing Instructive

HHP 3710 Sport Law 1 (2 hours)

A course designed to provide students with an introduction to the U.S. legal system as presented and applied to contexts of relevant to the sport industry. Students will also be introduced to fundamental legal principles of significance to sport management. Students will analyze numerous cases and the legal concepts and analyses presented to gain a deeper understanding of legal issues in various coaching, governance, management, and sport participation scenarios.

*Prerequisite(s): Sophomore standing.*  
(Normally offered each fall semester.)

HHP 3720 Healthcare Policy (2 hours)

This course will focus on the inner workings of health care policymaking, from the legislative process to socioeconomic impacts, and reveals both modern and historical perspectives in detail. The student will explore factors that shape the U.S. health care

system and policy, such as values, government, and private players, and compares them to other countries for international context.

*Prerequisite(s): Junior standing or permission of instructor.*

Archway Curriculum: Integrative Core: Human Health and Disease Thread

#### HHP 3730 Sports Marketing and Communication (3 hours)

This course will introduce students to the application of basic principles of marketing to the sport industry with an emphasis on intercollegiate athletics, professional sport and multisport club operations. The function of the course is threefold: 1) to provide students with a broad appreciation of marketing; 2) to provide students with an up-to-date understanding of marketing concepts as they are currently being applied in various sport management contexts; and 3) to provide a foundation for those students who plan to do advanced study and work in marketing, consumer behavior, and related fields.

(Normally offered each fall semester.)

#### HHP 3800 Research and Statistical Methods - I (2 hours)

Research and Statistical Methods is designed for junior or senior-level HHP majors to develop an understanding of the research process and the rationales for basic behavioral statistics in the field of exercise science. This class will focus on the creation of a research proposal for exercise science and on developing reading, writing, and practical skills to interpret and conduct research.

*Prerequisite(s): HHP 3850 Biomechanics and Kinesiology and HHP 4150 Physiology of Exercise or permission of instructor.*

(Normally offered each fall semester)

Archway Curriculum: Essential Connections: Writing Instructive

Archway Curriculum: Essential Connections: Discourse Instructive

#### HHP 3810 Research and Statistical Methods - II (2 hours)

This course is designed to help students develop an understanding of the research process and the rationales for basic behavioral statistics. This class will focus on developing skills to conduct a research study, analyze results, and complete the research paper. Students will present their research proposal to recruit subjects, give an informal elevator speech regarding the state of their research project, and at the end of the course, formally present their research study at the NWU Student Symposium.

*Prerequisite(s): HHP 3800 Research and Statistical Methods - I or permission of instructor.*

(Normally offered each spring semester.)

Archway Curriculum: Essential Connections: Speaking Instructive

#### HHP 3850 Biomechanics and Kinesiology (4 hours)

This course integrates physics with human movement to provide understanding of human movement from a kinetic and kinematic perspective. Students will explore and apply these principles to a human movement or exercise of their choice. In the later part of the course, students will be exposed to the detailed structural kinesiology of the musculoskeletal system.

*Prerequisite(s): BIO 1090 Introduction to Human Anatomy and Physiology I and junior standing.*

(Normally offered each spring semester.)

#### HHP 4150 Physiology of Exercise (4 hours)

This course explores the physiological effects and adaptations of exercise using a system approach. Students will be exposed to the latest research in the field that contributes to our understanding of how the human body is designed for exercise and movement. Practical application of these principles will be explored during class and throughout the laboratory experience.

One 1.5 hour lab per week.

*Prerequisite(s): BIO 1100 Introduction to Human Anatomy and Physiology II and junior standing.*

(Normally offered each fall semester.)

#### HHP 4220 Sport Finance (3 hours)

This course examines the sports industry in relation to the principles of budget, finance, and economics. Students will gain an understanding of financial management within the sport context.

*Prerequisite(s): Junior standing.*

(Normally offered each spring semester.)

#### HHP 4250 Exercise Testing and Programming (3 hours)

This course provides students hands-on learning of the laboratory and field tests used for assessing physical fitness and body composition for health and performance. Test results are used in developing individualized exercise programming to improve cardiorespiratory fitness, muscular fitness, body weight and body composition, as well as flexibility.

*Prerequisite(s): HHP 4150 Physiology of Exercise.*

(Normally offered each spring semester.)

#### HHP 4720 Sport Law II (2 hours)

A course designed to expand students' knowledge of the fundamental aspects of the U.S. legal system as presented through the management context of the sport industry. Legal topics will be integrated with management topics to refresh students' knowledge and understanding of key legal topics as well as delve deeper into the analysis and application of fundamental legal principles. Students will also analyze numerous cases that highlight relevant legal issues in sport to enhance critical thinking and problem-solving skills.

*Prerequisite(s): HHP 3710 Sport Law 1 and Sophomore standing.*  
(Normally offered each spring semester.)

#### HHP 4900 Selected Topics (1-3 hours)

A topical course designed to investigate relevant subject matter not included in any standard courses. The title and the content will be determined by current mutual interests of students and faculty. This course may be offered to meet a requirement for a major only by approval of the department chair.

#### HHP 4950 Independent Study (1-12 hours)

An opportunity for a student to engage in advanced, supervised, individual field, lab, or library research. Independent study may not duplicate courses described in the catalog. May be repeated for a maximum of up to 6 credit hours.

*Prerequisite(s): Junior standing and approval of the department chair.*

#### HHP 4960 Special Projects (1-15 hours)

Supervised individual projects for students on topics selected by the student in consultation with the instructor. Special Projects may not duplicate courses described in the catalog.

*Prerequisite(s): Permission of the instructor.*

#### HHP 4970 Internship (1-8 hours)

An on-the-job experience oriented toward the student's major interest. The student is to secure a position in an organization that satisfies the mutual interests of the instructor, the sponsor, and the student. May be repeated for a maximum of 6 credit hours. No P/F.

*Prerequisite(s): Junior standing and approval of the supervising faculty member.*

Archway Curriculum: Essential Connections: Experiential Learning: Intensive

#### HHP 4980 Professional Engagement/Capstone Seminar in HHP (2 hours)

*Beginning Spring 2018:*

A course designed to prepare students entering the professional environment in the field of health and human performance. This will be an opportunity for students to examine previous coursework and discuss its practical application to their chosen career. Topics to be covered are: the importance of goal and objective setting, networking, cover letter and resume writing including references, personal statement writing, applications for graduate school and/or job applications, and interviewing. Cross listed with AT 4980.

*Prerequisite(s): Junior or senior standing and a departmental major, or permission of the instructor.*  
(Normally offered each semester.)

*Prior to Spring 2018:*

A course designed as a capstone experience for students interested in the field of health and human performance. This will be an opportunity for students to examine previous coursework and discuss its practical application to their chosen career. Topics to be covered are: philosophy, cover letter and resume writing, personal statement writing, applications for graduate school and/or job applications, and interviewing. Students will also assess their undergraduate educational experience including general education major and minor. Cross listed with AT 4980.

*Prerequisite(s): Junior or senior standing and a departmental major, or permission of the instructor.*  
(Normally offered each semester.)

#### HHP 4990 Senior Assessment and Comprehensive Exam (0 hours)

As partial fulfillment of a major in the Health and Human Performance Department, a student must take and pass, with a B or better, a comprehensive examination during his or her senior year. The comprehensive examination is designed to assess critical thinking, knowledge, and application of skills learned. P/F Only. Cross listed with AT 4990.

*Prerequisite(s): Senior standing and a departmental major, or permission of the instructor.*  
(Normally offered each semester.)
