

Major:

Health and Fitness Studies (B.S.)

Departments/Programs:

Health and Human Performance

Students majoring in Health and Fitness Studies may pursue interest in such areas as personal training, strength and conditioning training, worksite wellness, health promotions, fitness centers, and graduate school. See your advisor regarding possible career choices and graduate school requirements.

Learning Outcomes

Majors will be able to:

1. Possess understanding of human anatomy, physiology, and biomechanics of movement and performance.
2. Demonstrate proficiency in assessing health, fitness, and well-being and prescribing programs to achieve goals in a safe and effective environment.
3. Demonstrate practical application of knowledge and ethical decision making in an appropriately supervised organizational setting.
4. Analyze and effectively communicate (oral and written) scholarly work in health and human performance.
