2 hours

Majors, Minors & Degrees:

Majors

Exercise Science (B.S.)

Health and Fitness Studies (B.S.)

Departments/Programs:

Health and Human Performance

This is a course designed to study foods and their effects upon health, development, and performance of the individual. The student will build on materials and knowledge learned from Nutrition I. The student will be introduced to the concepts of: link between food and energy, proper water balance, and electrolytes, science of supplementation, manipulation of macronutrient intake, nutrient timing, customized nutrition plans, and the key concepts of sport nutrition relative to both exercise and nutrition for optimal health and physical performance.

Prerequisite(s): HHP 2500 Basic Human Nutrition

(Normally offered each spring semester.)
