Nebraska Wesleyan University

Science and Religion

Catalog

2020-2021

Program Description

Science and religion both involve questions of knowledge: questions of what we claim to know and how we came to know it, questions of what we do not yet know and whether it can be known. At different times in history, and according to different thinkers, science's claims to knowledge have been seen as complementary to, or in competition with, or in conflict with, or simply of a wholly different kind than those of religion. The Science and Religion thread will combine the perspectives of several different disciplines on these questions of knowledge and belief, both historically and in the present.

This thread can be 9 or 18 hours.

Students must take at least one course from the 2000 level or above.

Courses in a 9-hour thread must be from a minimum of two disciplines. Courses in an 18-hour thread must be from a minimum of four disciplines, with no more than nine credits from any one discipline.

Required Thread Course	
IDS 1050FYW/IDS 1060/IDS 1070 Science and Religion Seminar	4 hours
Select Additional Courses to Meet Thread Requirements	
ANTHR 2630 Anthropology of Religion	4 hours
