Nebraska Wesleyan University

BIO 3200 Advanced Human Anatomy and Physiology I

Catalog

2020-2021

Course Description

This course is the first of a two-semester sequence anatomy and physiology for pre-health students that emphasizes the structure and function of the human body. It includes the study of homeostasis, tissues, and the integumentary, skeletal, muscular, and nervous systems in addition to the special senses.
Three lectures per week.
One 3-hour lab per week.
Prerequisite(s): CHEM 1110 Chemical Principles I and sophomore standing.
(Normally offered each fall semester.)
