ART 1050 Art Research

Catalog

2021-2022

Course Description

This studio art course provides an introduction to fundamental concepts and techniques for creative production + problem solving + presentation. We will aim to expand your understanding of what you can achieve and what interests you through experimentation with time, surface, and space as well as a thoughtful exploration of the elements and principles of 2D, 3D, and 4D art and design. While this course will cover some ideas of technique, materials, and process, this is primarily a course where our goal will be to develop our ideas and strategies for how to engage an artistic practice that takes place across material + dimensional boundaries based on the needs of "the work" and the concepts behind it.

Prerequisite(s): Permission of department chair.
