

Course:

ART 4500 Research and Practice in Photography

1-4 hours

Departments/Programs:

Art

This course will focus on content issues as they relate to the development of a body of work incorporating photography as a tool and resource with a wide range of expressive and creative interest. projects will be interdisciplinary in nature -and they can be collaborative [if working with people outside the art department] or independently produced, depending on the needs of the work. all work will be produced in consultation with the instructor. external exhibition opportunities will be explored.

Prerequisite(s): ART 3500 Advanced Photography or permission of instructor
