### Nebraska Wesleyan University Catalog 2021-2022

# Major: Nursing Traditional (B.S.N.)

## Departments/Programs:

## Nursing (Undergraduate)

The Nebraska Wesleyan University Traditional BSN program offers a traditional 4-year Bachelor of Science in Nursing (BSN) degree combining clinical and foundational knowledge including liberal arts courses to receive a more comprehensive education.

Students will gain hands on experience with over 800 clinical hours completed upon graduation from the program. Students will further develop critical thinking, decision-making and communication skills through clinical and preceptorship experiences. Students will also train in a fully equipped skills lab. Access to a simulation lab will be included in the clinical coursework.

This program has small class sizes with experienced faculty in all specialty areas of nursing. A prep course is built into the curriculum to help students succeed on the National Council Licensure Examination (NCLEX).

The program application process opens November 1 and closes February 1.

Students will first complete prerequisite coursework totaling 34-36 credits before admission to the program. Some nursing courses are in 8 week formats. (See prerequisite course list below.)

### **Standard Admission**

Admission to the NWU's Traditional BSN program is a competitive, holistic process and is based upon prerequisite GPA, overall college GPA, entrance exam, essay, and professional references. It is a selective process that admits a limited number of students per year. Students must meet these requirements to be admitted:

- Completion of prerequisite courses with grade of a??Ca?• or better.
- Satisfactory performance on Nursing Admission Exam (taken at NWU prior to admission).
- Cumulative college GPA of 3.0 or higher in all college courses completed at the time of application.
- CPR certification for Healthcare Providers from an approved provider (American Red Cross, American Hearth Association, National Safety Council, or Pro CPR).
- Successful completion of a Certified Nurse Aid course and student is listed on the state registry.
- Submission of 2 professional references.
- Successful completion of background check, drug screen, immunization tracker, and essential functions form (Castlebranch).

Admission process is subject to change and/or revision by nursing faculty.

## Direct Entry Admission as a High School Student

Direct Entry Admission is available to applicants of the Traditional BSN program whose high school GPA is 3.50 or higher and whose ACT score is 22 or higher (or the equivalent SAT score). Up to 75% of each cohort can be admitted via Direct Entry Admission. Students in Direct Entry Admission program must meet these criteria to maintain their Direct Entry Admission status:

- Maintain a college GPA of 3.0 or higher in all completed college coursework.
- Pass all prerequisite coursework on first attempt.
- CPR certification for Healthcare Providers from an approved provider (American Red Cross, American Hearth Association, National Safety Council, or Pro CPR).
- Successful completion of a Certified Nurse Aid course and student is listed on the state registry.
- Submission of 2 professional references.
- Successful completion of background check, drug screen, immunization tracker, and essential functions form (Castlebranch).

### **Direct Entry Admission as a Transfer Student**

- Cumulative GPA of 3.5 or higher in all completed college coursework.
- Pass all prerequisite coursework on first attempt.
- No Pass/Fail courses in sciences (except labs graded P/F only).

- No grade below C (2.0) in any college course.
- CPR certification for Healthcare Providers from an approved provider (American Red Cross, American Hearth Association, National Safety Council, or Pro CPR).
- Successful completion of a Certified Nurse Aid course and student is listed on the state registry.
- Submission of 2 professional references.
- Successful completion of background check, drug screen, immunization tracker, and essential functions form (Castlebranch).

## Direct Entry Admission with completed Bachelor's or Graduate Degree

- Graduated with cumulative college GPA of 3.5 or higher.
- Prerequisite courses completed with a grade of C (2.0) or higher.
- CPR certification for Healthcare Providers from an approved provider (American Red Cross, American Hearth Association, National Safety Council, or Pro CPR).
- Successful completion of a Certified Nurse Aid course and student is listed on the state registry.
- Submission of 2 professional references.
- Successful completion of background check, drug screen, immunization tracker, and essential functions form (Castlebranch).

Students who are unable to maintain Direct Entry Admission status are encouraged to apply to the nursing program using the Standard Admission process outlined above.

### Maintenance of Good Standing in Nursing Program

- 1. Student must earn a C+ or better in all nursing courses (subject NURS) to continue in the nursing program.
  - a. The student must maintain a cumulative average on exams of 78% in all nursing courses (subject NURS) in order to progress in the program. The weighted average of all examinations will be calculated before other coursework. If the average of exam grades is less than 78%, the exam average becomes the course final grade. If the exam average is greater than or equal to 78%, then other coursework scores will be added and the resulting average must be 78% or greater in order to pass the course.
  - b. For courses in which theory and clinical are combined, clinical laboratory performance is rated on a Pass/Fail basis. A rating of "Fail" in clinical laboratory performance results in a F grade in the course. If the clinical laboratory performance is "Pass," the grade awarded for the course will be based upon the theory grade (see #1 above).
- 2. Students will be dismissed from the nursing program if a final course grade of less than 78% (C+) is earned more than once in any combination of nursing courses required for the nursing major (subject NURS).
- 3. NWU Student Code of Conduct violations may result in program dismissal.

Prerequisite Courses (Required to be taken before admission to program. Grade C or higher required in all prerequisite courses)	34 hours
IDS 1010 Archway Seminar	4 hours
SOC 1110 Introduction to Sociology	4 hours
BIO 1080 Microbiology*	4 hours
BIO 1090 Introduction to Human Anatomy and Physiology I* and BIO 1090L Introduction to Human Anatomy and Physiology I Laboratory*	4 hours
BIO 1100 Introduction to Human Anatomy and Physiology II* and BIO 1100L Introduction to Human Anatomy and Physiology II Lab*	4 hours
CHEM 1110 Chemical Principles I *and CHEM 1110L Chemical Principles I Laboratory*	4 hours
ENG 1010FYW Writing and Language or other approved first-year writing course	2, 3, or 4 hours
One college-level mathematics course	2-5 hours
NURS 1910 Medical Terminology*	1 hour
