3 hours

Majors, Minors & Degrees:

Majors

Health and Fitness Studies (B.S.)
Health and Physical Education (B.S.)

Minors

Health and Fitness Studies

Departments/Programs:

Health and Human Performance (Undergraduate)

A course designed to develop and expand information about the environment, the informed health consumer, healthful aging and community health. The course will acquaint students with the process of aging, consumer protection, the environment, and community from a health perspective.
(Normally offered each fall semester.)
