

Course:

ECON 3150 Environmental Economics

3 hours

Majors, Minors & Degrees:

Minors

Environmental Studies

Departments/Programs:

Business, Accounting and Economics (Undergraduate)

This course allows students to investigate resource scarcity, the energy problem, and alternatives for the future. Emphasis is placed on benefits and costs of environmental preservation and the contribution that the economics discipline makes toward the solution of environmental problems. Selected current problems are integrated throughout the course.

Prerequisite(s): Grade of "C-" or better in ECON 1540 Microeconomic Principles or permission of the instructor.
