**Nebraska Wesleyan University**

# MATH 1090 Intermediate Algebra

## Catalog

2023-2024

## Course Description

A study of properties of real numbers, linear and nonlinear inequalities, factoring, exponents and radicals, linear and polynomial equations, fractional equations, functions and their graphs. Emphasis on mathematical modeling and problem-solving. This course does not fulfill any degree requirements.

## Course Hours

3 hours

## Departments

1. Mathematics and Computer Science
