

Major:

Data Analytics (B.A., B.S.)

The Data Analytics major brings together skills in computer programming, quantitative reasoning, collaboration, communication, and creative thinking. Students who pursue this major will develop a broad technological toolkit for obtaining, analyzing, and visualizing data. By applying their skills to projects and internships, students will acquire flexible problem-solving skills for rapidly-changing professional environment.

Academically equivalent, both bachelor of arts and bachelor of science degrees will fully prepare you for a career in data analytics. If you choose to graduate with two majors, and the one major is only offered as a B.A. or B.S., the second major should match the first degree.

Departments/Programs:

Mathematics and Computer Science

Data Analytics Major (B.A. or B.S.** , 38-40 hours)

Technical Foundations	20 hours
CMPSC 1100 Python Programming I	4 hours
DATA 1200 Excel and SQL Programming	4 hours
CMPSC 2100 Python Programming II	4 hours
DATA 1350 Introduction To Data Analytics	4 hours
DATA 3100 Data Visualization With R	4 hours
Statistics	2-4 hours

Take one of the following:

- BUSAD 2100 Business and Economic Statistics
 - MATH 1300 Statistics
 - MATH 3300 Mathematical Statistics I
 - POLSC 2000 Introduction to Political Science Statistics
 - PSYCH 2100 Psychological Statistics
 - SOC 2910 Social Statistics
- 2-4 hours

Communication	4 hours
---------------	---------

Take one of the following:

- COMM 4100 Communication in the Professions
 - COMM 3200 Persuasive Communication
 - COMM 3800 Communication through Dialogue
- 4 hours

Concentration (Choose one)		6 hours
Advanced Data Analytics		3 hours
<ul style="list-style-type: none"> • DATA 3200 Principles and Techniques of Data Analytics I* • DATA 3300 Principles and Techniques of Data Analytics II* 		3 hours
<hr/>		
Business		3 hours
<ul style="list-style-type: none"> • BUSAD 3100 Managing Information Systems • BUSAD 3300 Quantitative Methods 		3 hours
<hr/>		
Project Management		3 hours
<ul style="list-style-type: none"> • BUSAD 1650 Introduction to Project Management* • BUSAD 2550 Project Planning* 		3 hours
<hr/>		
Cybersecurity		3 hours
<ul style="list-style-type: none"> • DATA 1700 Introduction to Cybersecurity* • DATA 2700 Cybercrime and Governance* 		3 hours
<hr/>		
Supply Chain Management		3 hours
<ul style="list-style-type: none"> • DATA 2200 Forecasting And Logistics* • DATA 2300 Sourcing and Operations* 		3 hours
<hr/>		
Computer Science		3 hours
<ul style="list-style-type: none"> • CMPSC 3000 Data Structures* • CMPSC 4000 Algorithms* 		3 hours
<hr/>		
Experiential Learning Internship		6 hours
DATA 4970 Internship		3 hours
<hr/>		
Capstone		3 hours
DATA 4980 Capstone Project		3 hours

*This course is offered remotely via NWU's partnership with a Consortium. The partnership allows students to earn NWU credit for specific courses. Classes are designed by top academics and industry leaders, vetted by NWU, and taught by experts in the field.

**A Data Analytics major may earn either a B.A. or B.S. degree. However, if a student has a first major that is associated with a different baccalaureate degree, the Data Analytics major may serve as a second major for the degree associated with the first major (B.F.A., B.M., B.S.N.).
