

Major:

## Public Health (B.S.)

Departments/Programs:

Health and Human Performance (Undergraduate)

Public Health is the field of study focused on preventing illness and promoting health in individuals, communities and society as a whole. The Bachelor of Science in Public Health degree is designed to be flexible, and yet provide disciplinary breadth for students interested in an entry-level career or graduate studies in public health. Students will take courses from a core program, and are suggested to select electives which best complement their specific area of interest in Public Health. Additionally, a minor might be recommended for students based on their specific area of interest.
