

**Course:**

**BIO 3000 An Introduction to Biomedical Ethics**

**2 hours**

**Majors, Minors & Degrees:**

**Majors**

Biology (B.S.)

**Departments/Programs:**

Biology

An introduction to the ethical issues raised by modern biological and medical research and clinical medicine. Case studies and readings will be used to present the following ethical issues: environmental ethics; patients' rights and physicians' responsibilities; abortion, euthanasia, and definitions of death; allocation of medical resources; humans as experimental subjects; behavioral technologies; genetic testing, screening, and manipulation; and reproductive technologies. Student participation will involve class discussions and oral and written presentations.

One 2-hour lecture/discussion session per week. No P/F.

*Prerequisite(s): Junior standing and at least 16 hours in biology coursework.*
